Add-on courses and certificate courses are supplement to your skill marketing.	33.3	56.9	3.9	2	3.9

Student's feedbacks were collected online. The feedback of students addressed the syllabus and related factors. Overall, the feedbacks received were quite positive. The above analysis shows the details of feedback collected from the students on the academic year 2019-20. Based on the analysis, Majority of the students were satisfied with academic standard and advanced syllabus. Majority of the students(90%) agreed the timely completion of course content. The responses from the 90% students indicate the syllabus is relevant, informative and helpful for higher studies. Additionally, almost 90% of the responded students were affirmative to the add on courses and certificate courses supplement to the skill marketing. A request by the students is the formulation of syllabi that bridges gap between theory and practices, providing more opportunities for field works and internship, which shall enable them to participate in work place.

Actions taken:

It was decided in the council meeting to start new add o programmes to the students of the college
